Subject: FW: Quick question on other Tribal involvement at Bradford Island

Hey Bob,

Do you have any info on involvement from other Tribes on the Bradford Island site? Do you by any chance have contacts for these tribes? If not, I can get our tribal folks to help. Thanks!

Hello Ken -

Participation from other tribes has been sporadic over the last decade. In terms of tribal members fishing within the zone of contamination or the entire zone 6 fishery, it is conservative to say that 75-80% of the tribal members in this area are Yakamas. You may want to contact Bob Schwarz (ODEQ) or Dianne Barton (CRITFC) to get more information about other tribes interests at the Bradford Island site.

Thank you,

rose

Hi Rose, Laura,

Quick question: As we prepare the National Priorities Listing package for Bradford Island, it would be helpful to wrap in any involvement from tribes other than Yakama Nation. I am aware of three other tribes that have treaty fishing rights in the area, I was wondering if they have been involved at all in site meetings or document review – have they commented on anything? I’m also wondering if they might have information about their tribal members fishing within the zone of contamination. Any information (even just contact information for the other tribes) would be greatly appreciated. Thanks! Ken
